presenting

“The Frankenstein Contest Revisited”

"I am not a monster"

Learn how corporate 'beings' were 'born' under the black robes of the court.
Learn how they were transformed, bit by bit, into 'super-humans' over the past 200 years.
Understand how they now usurp our constitutional principles without accountability or redress.
See how our democracy suffers when corporation-government boundaries become obscure.
Find out what we must do to regain control of our government.

Q and A period to follow
